## PVC/Vinyl Fencing & Railings

Fences and railings provide important protective and decorative elements to your home and yard. But what type of material is best to use? Kathy, owner of Angel Fence & Railing, Inc. says that PVC/Vinyl is the perfect solution for homeowners for many reasons. It is environmentally friendly, with no toxins to pollute the sky or seep into the ground. Their PVC/Vinyl products will never yellow, are virtually maintenance-free and never need painting. It has a smooth surface; there are no nails, sharp edges, or splinters. There are special additives that make the vinyl rigid, yet flexible enough to resist cracking in the cold weather months. All of these characteristics provide stability, durability, and long life. Kathy also states that it is the most cost-effective option in fencing and railing because of its long life. For appearance, many colors and decorative options are available. All PVC/Vinyl materials are backed by the manufacturer's lifetime warranty and the company always guarantees their work.

Angel Fence & Railing offers a shop-at-home service. The sales staff is professional, personable and knowledgeable of the products and services they offer. They can easily guide you to the right products for your home and tastes. All appointments are honored within a one-hour time frame for your quick, in-home free estimate.

For the past 13 years, Angel Fence & Railing has given their customers quality products and the superior service they deserve. The company does not use sub-contractors. Their installation teams are experts in what they do and most have been with the company for all those 13 years. They are courteous and pay attention to detail. You can count on outstanding workmanship done with efficiency by their experienced installers. Kathy says their reputation for customer satisfaction is remarkable and most of her customers actually call to thank her!

Angel Fence & Railing Inc. is fully insured and maintains licenses in both Nassau and Suffolk counties and they have a zero complaint record with Consumer Affairs. Kathy tells us that before you invest in a fence, ask your representative to give detailed material specifications on the products they are proposing; also ask for samples and make comparisons. Before signing a contract, be sure to check with your local Department of Consumer Affairs to view their complaint history and ensure your contractor is properly licensed and insured.
